

MISSION STATEMENT

It is the mission of the Transportation Department to provide safe, efficient, on-time delivery for the students of FWCS. We will accomplish this by focusing on safety through purchasing buses and related equipment with the latest in technology, by hiring the most qualified staff, and by providing ongoing training and in-service programs for drivers and staff. We will support the mission of FWCS in embracing change and striving for excellence and by participating in preparing students to lead responsible, compassionate, and productive lives. **We will educate all students to high standards.**

Frank Jackson
Director Transportation
