

Reading

In English we are studying the Civil Rights Movement. Students created an infographic (facts with a picture) on the computer of someone who played an important role in civil rights.

We are reading biographies about many others who took courageous action. The students are very interested in this topic, and some of them have done extra research to learn more!

Writing

We continue to write daily in this class. Most of our students are great thinkers and do a nice job of expressing themselves on paper. The content of what they write is usually very good. We are continuing to work on the very basics.... capital letters and periods! If you check your child's homework, please ask him/her to correct any basic errors that are made.

Cub Cart

Today we had the Cub Cart in which students can make purchases with "cub cash" earned. I am pleased with the behavior in this class and the students have earned plenty.
