

SCORE! 2021

EMBASSY THEATRE

For Rising 9th Grade GEAR UP Students

PROGRAM OVERVIEW

Through this three-week intensive musical theater experience, middle school age young people devise, create, produce and perform an original piece of musical theater. Working with industry professionals, they will learn the skills of writing dialogue, play-writing, drama, music, writing lyrics, as well as production and technical arts culminating with a performance on the legendary Embassy stage.

Two key words in this program are “process” and “original.” By guiding students through the process of creating something for themselves, we challenge participants as total persons, engaging both their personal creativity and their physical stamina. By forming their own company, not only do they take on adult roles of their professional counterparts, they learn the importance of teamwork and engage directly in the multidisciplinary elements of the musical theater form. Students will investigate how the individual elements of voice, movement, drama, music and the visual arts combine to create a cohesive, unified, transporting experience.

By forming their own company, the participants are “in control” of the project- guided and supported by experienced advisors. This is exciting and the fruit of their efforts is immediately apparent in the production that comes together before their very eyes.

DATES: July 6 –July 25 (Performance on July 25th at the Embassy Theatre)

TIMES: 8:30 am - 12:30 pm at the Embassy Theatre

COST: Registration fees will be paid by the K-12 College & Career Readiness/GEAR UP office
